

**SOCIETY FOR LONGITUDINAL AND LIFE COURSE STUDIES
INTERNATIONAL CONFERENCE**

**Growing Up and Growing Old: Health Transitions Throughout the
Lifecourse**

**Hotel Casa 400, Eerste Ringdijkstraat 4, 1097 BC, Amsterdam,
The Netherlands**

23rd – 25th September 2013

CONFERENCE PROGRAMME

Day 1: Monday 23rd September 2013

Registration **Congress Desk**
08:00 – 09:30

Conference Welcome

Room: UvA 2,3,4 **Elizabeth Cooksey** - Professor of Sociology and Associate Director, Center for Human Resource Research, The Ohio State University, President of SLLS;
09:00 - 09:30 **John Bynner** - Emeritus Professor, Institute of Education, London University and Editor, Journal of Longitudinal and Life Course Studies

Keynote **Age-related changes in the determinants in exercise behaviour**
Room: UvA 2,3,4 **Eco de Geus** - Professor of Biological Psychology, Co-Director of the Netherlands Twin Registry and Director of the EMGO Institute for Health and Care Research at the VU Medical Center in Amsterdam; Co-authors: Charlotte Huppertz, Marleen de Moor, Meike Bartels, VU Medical Center; Chair: Jan Smit, VU Medical Center
09:30 – 10:30

Tea/Coffee **Coffee Stations**
10:30 – 11:00

PARALLEL SESSION 1

1A: Substance Use

Chair: Michelle Kelly-Irving, INSERM, France

Room: Stellenbosch **Understanding alcohol consumption in a family context**
11:00 – 12:30 *Cara Booker, University of Essex, UK*

Educational attainment and trajectories of alcohol use from adolescence through adulthood

Robert Crosnoe, Sarah Kendig, Aprile Benner, University of Texas at Austin, USA

Veteran status and smoking over the life course: an age-period-cohort analysis

Andrew London, Richard Miech, Janet Wilmoth, Syracuse University, USA

Influence of conduct problems and depressive symptoms on adolescent substance use: proximal versus distal effects

Julie Maslowsky, University of Wisconsin, USA

1B: Racism, Discrimination and Perceived Barriers

Chair: Vincent Jaddoe, Erasmus Medical Center, Netherlands

Room: Sorbonne **A longitudinal examination of experienced racism and discrimination on maternal health, parenting practices and child health**
11:00 – 12:30

Laia Becares, James Nazroo, University of Manchester, UK; Yvonne Kelly, University College London, UK

The cumulative effects of discrimination on substance use disorders from early adolescence to emerging adulthood among North American indigenous adolescents

Les Whitbeck, University of Nebraska-Lincoln, USA; Kelley Sittner Hartshorn, Oklahoma State University, USA

Coping with structural disadvantage: overcoming negative effects of perceived barriers through collective self-definitions

Mouna Bakouri, Christian Staerklé, Véronique Eicher, Marlène Carvalhosa Barbosa, Alain Clémence, University of Lausanne, Switzerland

1C: Emotional Health

Chair: Stephen Stansfeld, Queen Mary University of London, UK

Room: Oxford

11:00 – 12:30

The vulnerability-stress-adaptation model over 25 years: a developmental systems perspective

Matthew Johnson, Nancy Galambos, Harvey Krahn, University of Alberta, Canada

The emotional health of boomerang kids

Sarah Sandberg-Thoma, Anastasia Snyder, Bohyun Joy Jang, The Ohio State University, USA

Working conditions in mid-life and mental health in older ages – results from SHARELIFE

Morten Wahrendorf, David Blane, Mel Bartley, University College London, UK; Nico Dragano, Johannes Siegrist, University of Dusseldorf, Germany

Adult life course transitions, social ties, and mental health

Kristi Williams, Cynthia Colen, The Ohio State University, USA; Patricia Thomas; Debra Umberson, The University of Texas at Austin, USA

1D: Findings from the UK Millenium Cohort Study

Chair: Heather Joshi, Institute of Education, UK

Room: UvA 1

11:00 – 12:30

Parental involvement, values and well-being and behavioural problems in childhood: the mediating role of young children's occupational aspirations

Vanessa Moulton, Eirini Flouri, Heather Joshi, Alice Sullivan, Institute of Education, UK

Asthma trajectories in early childhood: results from a national longitudinal study

Lidia Panico, INED, France; Mel Bartley, Yvonne Kelly, University College London, UK; Beth Stuart, University of Southampton, UK

Socio-economic disadvantage and disabled children's outcomes. Evidence from the Millennium Cohort Study

Lucinda Platt, Samantha Parsons, Institute of Education, UK

Changes in bedtime schedules and changes in behavioural difficulties in 7-year old children

Amanda Sacker, Yvonne Kelly, John Kelly, University College London, UK

Lunch

12:30 – 13:30

Erasmus 1 & 2

LLCS Editorial Board meeting with lunch

Room: Heidelberg

12:30 – 13:30

Poster session**13:30 – 14:30****Balcony**

Posters can be put up from 8:00 on Monday 23rd and stay up until 16:00 on Wednesday 25th. Please note presenters will only be with their posters to answer questions during this session.

Growing Up in New Zealand

Susan Morton, University of Auckland, New Zealand

West of Scotland Twenty-07 Study (tbc)**Understanding Society**

Michaela Benzeval, University of Essex, UK

Longitudinal Effects of Daily Stressors and Diurnal Cortisol: Taking a More Dynamic View of Allostatic Load

David Almeida, Pennsylvania State University, USA; Robert Stawski, University of Michigan, USA

Eating disorders throughout the lifecourse. Results of a qualitative study with 50-70 year old women in Austria

Mahdi Akhbardeh, Tehran Medical University, Iran

Variations in practice among physicians providing clinical care to individuals with dementia: a systematic review

Saskia Sivananthan, Joseph Puyat, Kimberlyn McGrail, UBC Centre for Health Services and Policy Research, Canada

Is active commuting good for your health?

Lidia Panico, INED, France

The health, work and retirement study: overview of a longitudinal New Zealand study

Fiona Alpass, Christine Stephens, Brendan Stevenson, Massey University, New Zealand

Transitions into higher vocational healthcare education in Switzerland: The role of subjective task values

Ines Trede, Swiss Federal Institute for Vocational Education and Training, Switzerland; Irene Kriesi, University of Zurich, Switzerland

Health promotion and vulnerabilities during life course: the development of a population approach to the prevention of early childhood to old age

Stephanie Pin, National Institute for Prevention and Health Education, France

Adverse life events and socio-emotional outcomes among 9 year olds in Ireland - evidence from the Growing up in Ireland study

James Williams, Economic and Social Research Institute, Ireland; Mark Morgan, Cathal McCrory, Trinity College Dublin, Ireland

The health effects of later-life employment - a meta-analysis

Katey Matthews, Tarani Chandola, James Nazroo, Neil Pendleton University of Manchester, UK

The lost generation: Factors influencing young people's career development in Taiwan

Fei-Yun Tsui, Institute of Education, UK

The role of smoking for social class inequalities in psychiatric distress across the youth-to-adult transition: A cross-cohort comparison

Michael Green, Alastair Leyland, Helen Sweeting, MRC/CSO Social and Public Health Sciences Unit, UK, Michaela Benzeval, University of Essex, UK

Individual-level socioeconomic position, neighbourhood disadvantage, and 5-year change in active transport among a 'baby boomer' cohort: longitudinal, multilevel findings from the HABITAT study

Gavin Turrell, Belinda Hewitt, Michele Haynes, Billie Giles-Corti, Queensland University, Australia

A multilevel study on ethnic and socio-economic school stratification and risk behaviors among students in Stockholm

Gabriella Olsson, Johan Fritzell, Centre for Health Equity Studies (CHESS), Sweden

Gender, adverse childhood experiences and inadequate sleep in adulthood

Andrew London, Syracuse University, USA; Sarah Burgard, University of Michigan, USA

Catalyzing social protection initiatives for the elderly in Kenya

Joseph Akuma, Universite de Pau des Pays de l'Adour, France

Results from the Venetian Longitudinal Study

Lorenzo Simonato, Cristina Canova, Laura Cestari, Valentina Zabeo, Barbara Palazzi, Vittorio Selle, University of Padua, Italy

Predictors over a span of 35 years for adverse health conditions or death in midlife

Achim Hattich, Kurt Hafeli, Claudia Schellenberg, Nicholas Schmaeh, University of Applied Sciences of Special Needs Education, Switzerland

Long-term health outcomes in formerly institutionalized youth

Janna Verbruggen, VU Medical Center, Netherlands

Caregivers' communication with terminal cancer patients about illness and death: the role of gender

Yaakov Bachner, Aner Sela, Sara Carmel, Ben-Gurion University, Israel

Job mobility, family, and health - a critical overview of the international literature

Lisa Hoffmann, Charlotte Ullrich, Sabine Metzinger, Frederike zu Sayn-Wittgenstein, University of Osnabrueck, Germany

Do conflicts between different life domains make you sick? The impact of life domain conflict and facilitation on subjective health in middle adulthood

Michaela Knecht, Alexandra Freund, University of Zurich, Switzerland

Gender differences of disengagement among elderly Japanese people using latent transition analysis

Tomoo Nakata, Hokusei Gakuen University, Japan

Trends in complex health problems in the oldest old in Sweden 1992-2011 - no signs of a compression of morbidity

Bettina Meinow, M. Parker, M. Thorslund, Stockholm University, Sweden

Biolink NL

Gerard van Grootheest, Adelaide Ariel, Willem de Bruijn, Olaf Klungel, Jan Smit, Bep Verkerk, VU Medical Center, Netherlands

Changing self-perceptions of aging enhances effectiveness of exercise interventions for older adults

Julia Wolff, Lisa Warner, Jochen Ziegelmann, Ralf Schwarzer, Clemens Tesch Romer, Susanne Wurm, German Centre of Gerontology, Germany

Cumulative life course impairment of dermatological diseases

Dennis Linder, Dermatology University Clinic, Padua, Italy

The Gateway to Global Aging Data (G2G)

Drystan Phillips, Lee Jinkook, RAND Corporation, USA

The type to train? Impacts of personality characteristics on participation in further training

Judith Offerhaus, Bremen International Graduate School of Social Sciences, Germany

SYMPOSIUM SESSION 1**S1A Chair: Lisbeth Trille G. Loft, The Danish National Centre for Social Research, Denmark**

Room: Oxford **Family resources and health: perspectives from the Danish Longitudinal Study of Children – 1995 birth cohort**
14:30 – 15:45

Socio-economic inequality and ADHD diagnosis

Helene Oldrup, The Danish National Centre for Social Research (SFI), Denmark

Adolescents and depressive symptoms

Mai Heide Ottesen, The Danish National Centre for Social Research (SFI), Denmark

Childhood inequality and transition to adulthood

Rikke Fuglsang Olsen, Lisbeth Trille G. Loft, The Danish National Centre for Social Research (SFI), Denmark

Risk behaviour among adolescents placed in out-of-home care

Alva Alboek Nielsen, Mette Lausten, The Danish National Centre for Social Research (SFI), Denmark

S1B Chair: Afshin Zilanawala, University College London, UK

Room: Sorbonne **Race/ethnic disparities in children's health and behaviour: comparative analyses in the UK and US**
14:30 – 15:45

Understanding ethnic differences in BMI in the UK

Afshin Zilanawala, Amanda Sacker, Yvonne Kelly, University College London, UK; James Nazroo, University of Manchester, UK; Pamela Davis-Kean, Sharon Simonton, University of Michigan, USA

Ethnic differences in maternal and teacher completed strengths and difficulties questionnaires: findings from the UK Millennium Cohort Study

Amanda Sacker, Yvonne Kelly, University College London, UK; James Nazroo, University of Manchester, UK

Teacher and parent ratings of pre-school child externalizing problems: ethnicity and early temperament

Pamela E. Davis-Kean, Sharon Simonton, University of Michigan, USA

Unpacking ethnic disparities in early cognitive skills for Hispanic children in the US

Sharon Simonton, Pamela E. Davis-Kean, University of Michigan, USA

S1C Chair: Hannie Comjls, VU Medical Center, Netherlands

Room: Stellenbosch **Long-term changes in cognitive functioning in older adults. The Longitudinal Aging Study Amsterdam**
14:30 – 15:45

A solid infrastructure for the study of human ageing: The Longitudinal Aging Study Amsterdam

Martijn Huisman, VU Medical Center, Netherlands

Latent class trajectories of cognitive aging

Marja Aartsen, VU Medical Center, Netherlands

Depression and cognition: how do they interrelate in old age?

Tessa van den Kommer, VU Medical Center, Netherlands

Adverse childhood and recent negative life events: contrasting associations with cognitive decline in older persons

Nicole Korten, VU Medical Center, Netherlands

S1D Chair: Jeremy Staff, Pennsylvania State University, USA

Room: UvA 1
14:30 – 15:45

Identifying selection influences in long-term studies of health and adjustment**The association between cumulative child and adolescent difficulties and adult functioning: replication across studies from Finland, Sweden, UK, and the US**

John Schulenberg, Sharon Simonton, University of Michigan, USA; Greg Duncan, University of California, Irvine, USA; Justin Jager, Arizona State University, USA; Katja Kokko, Anna-Liisa Lyyra, University of Jyväskylä, Finland; Molly Metzger, Washington University, USA

Substance use and the transition to adulthood in the UK

Ingrid Schoon, Institute of Education, UK; Jeremy Staff, Jennifer Maggs, Pennsylvania State University, USA

Alcohol, health, and J-shaped curves in the National Child Development Study

Jeremy Staff, Jennifer Maggs, Rebecca Evans-Polce, Pennsylvania State University, USA; Megan Patrick, University of Michigan, USA; Ingrid Schoon, Institute of Education, UK; John Schulenberg, University of Michigan, USA

Drinking patterns predict alcohol problem symptoms and early mortality up to 27 years later in the National Child Development Study

Jennifer Maggs, Rebecca Evans-Polce, Jeremy Staff, Nicole Morgan, Pennsylvania State University, USA, Megan Patrick, John Schulenberg, University of Michigan, USA

Discussant

Derek Kreager, Pennsylvania State University, USA

Tea/Coffee

15:45 – 16:15

Coffee Stations**PARALLEL SESSION 2****2A: Retirement and the Third Age**

Chair: Lesley Andres, University of British Columbia, Canada

Room: UvA1
16:15 – 17:45

Life satisfaction across the retirement transition: an analysis investigating different latent subgroups of retirees

Lachlan Heybroek, Janeen Baxter, Michele Haynes, University of Queensland, Australia

The health effects of later-life employment: the importance of employment quality post retirement age

Katey Matthews, Tarani Chandola, James Nazroo, Neil Pendleton, University of Manchester, UK

Learning motivation of the elderly in China: a study at three universities for the third age

Xinyi Zhao, University of Hong Kong, Hong Kong

Learning and wellbeing trajectories among older adults in England

Andrew Jenkins, Tarek Mostafa, Institute of Education, UK

2B: Health: From Childhood to Old Age**Chair: Meena Kumari, University College London, UK****Room: Stellenbosch** **Childhood conditions, education, and health in old age****16:15 – 17:45***Hanna Berndt, Stefan Fors, Karolinska Institutet, Sweden***Do adverse childhood experiences lead to psychological wear-and-tear over the lifecourse? Preliminary findings in the 1958 birth cohort***Michelle Kelly-Irving, Cristina Barbosa Solis, Benoit Lepage, Pascale Grosclaude, Thierry Lang, Cyrille Delpierre, INSERM, France***Social and economic conditions in childhood, smoking, and the development of mobility impairment from midlife into old age***Neda Agahi, Stefan Fors, Karolinska Institutet, Sweden; Benjamin Shaw, University at Albany, New York, USA***Childhood disadvantage, military service, and later life health: variation among white, black and Hispanic men***Andrew London, Janet Wilmoth, Syracuse University, USA***2C: Childhood Risk and Resilience****Chair: Dario Spini, University of Lausanne, Switzerland****Room: Sorbonne****16:15 – 17:45****Family poverty and trajectories of children's emotional and behavioural problems: the moderating roles of self-regulation and verbal cognitive ability***Emily Midouhas, Eirini Flouri, Heather Joshi, Institute of Education, UK***Socio-economic status, economic strain and child externalising behaviour***Richard Layte, Maeve Thornton, Economic and Social Research Institute, Ireland; Sharon Cruise, Queen's University Belfast, UK; Cathal McCrory, Trinity College Dublin, Ireland***Emotional and behavioural resilience to multiple risk exposure in early life: the role of parenting***Eirini Flouri, Emily Midouhas, Heather Joshi, Nikos Tzavidis, Alice Sullivan, Jack Wiggins, Institute of Education, UK***2D: Attrition and Weighting in Longitudinal Surveys****Chair: Harvey Goldstein, University of Bristol, UK****Room: Oxford****16:15 – 17:45****Weighting in multilevel, longitudinal surveys: an application to investigating physical activity of mid-aged Australians using the HABITAT survey***Bernard Baffour, Michele Haynes, University of Queensland, Australia; Gavin Turrell, Queensland University of Technology, Australia***Weight computation for the French national birth cohort Elfe: the challenge of multidisciplinary***Hélène Juillard, Nicolas Razafindratsima, Marie-Aline Charles, Jean-Louis Lanoë, Xavier Thierry, Ined-Inserm joint unit ELFE, France***New technologies in longitudinal surveys: tricks or treats?***Delphine Provençal, Nancy Illick, Institut de la Statistique du Québec, Canada***Trajectories of cognition and attrition in England (ELSA) and the US (HRS) 2002-2010***Gindo Tampubolon, University of Manchester, UK***Conference dinner****18:30****De Hoop, Weesperzijde 1046a, 1091 EH, Amsterdam (www.karzvdehoop.nl) - depart from Hotel Casa 400 at 18:00 & 18:15. Approx. 10 minutes walk from Hotel Casa 400)**

Day 2: Tuesday 24th September 2013

Registration

Congress Desk

08:00 – 09:00

PARALLEL SESSION 3

3A: Contextual Influences on Child Development

Chair: Ingeborg Marie Helgeland, University of Oslo, Norway

Room: UvA 1

9:00 – 10:30

The contribution of neighbourhoods and schools to cognitive test performance at age 7 – findings from the UK Millennium Cohort Study

Anja Heilmann, Yvonne Kelly, Mai Stafford, Richard Watt, University College London, UK

Causation between maternal employment in the first year after childbirth and early childhood development

Youngjo Im, University of Chicago, USA

Changes in the prevalence and social distribution of socio-emotional behaviour before and after children start primary school: findings from the UK Millennium Cohort Study (MCS)

Anna Pearce, Nadia Micali, University College London, UK

The effect of residential mobility and school change on the educational achievement of US elementary school students

Anthony Buttarò, City University of New York, USA

3B: Gender

Chair: Mette Lausten, The Danish National Centre for Social Research, Denmark

Room: Stellenbosch

9:00 – 10:30

And yet they move: shifts in gender attitudes across the transition into parenthood

Janeen Baxter, Francisco Perales, University of Queensland, Australia

The education, labour force and family nexus: How do women and men fare over the life course

Lesley Andres, Janine Jongbloed, University of British Columbia, Canada

The Paula Principle: how far are women's increasing competences rewarded at work?

Tom Schuller, Longview, UK

Understanding the unfinished gender revolution in Australia through a longitudinal analysis of the lives of two generations of women

Hernan Cuervo, Jessica Crofts, University of Melbourne, Australia

3C: Obesity

Chair: David Blane, University College London, UK

Room: Sorbonne

9:00 – 10:30

Life-course body mass index and adult blood pressure in two British birth cohorts: estimating associations using joint multivariate response modelling

Leah Li, Diana Kuh, Rebecca Hardy, Chris Power, University College London, UK

The conditions of early childhood: the importance of maternal nurturing as a buffer against the effects of poverty on adolescent obesity

Pamela Salsberry, The Ohio State University, USA

The influence of the environment on childhood obesity

Lucinda Platt, Institute of Education, UK; Annemarie Schalkwijk, Petra Elders; Giel Nijpels, VU Medical Center, Netherlands

Development and relationship between self-esteem and body mass index from adolescence to middle age. A prospective cohort study from 16 to 42 years of age

Olli Kiviruusu, Hanna Konttinen, Taina Huurre, Hillevi Aro, Ari Haukkala, National Institute for Health and Welfare, Finland

3D: Health Among the Elderly

Chair: Elizabeth Webb, University College London, UK

**Room: Oxford
9:00 – 10:30**

In sickness and in health? Comorbidity in older couples

Cara Booker, Steven Pudney, University of Essex, UK

Inequalities in trajectories of frailty at the older ages: findings from a growth modelling approach

Alan Marshall, James Nazroo, Gindo Tampubolon, University of Manchester, UK

Falls in the elderly as life events: the differential impact of falls on subjective health trajectories

Stephanie Pin, National Institute for Prevention and Health Education, France; Dario Spini, Pierre Arwidson, University of Lausanne, Switzerland

Mediating role of self-rated health in the prediction of mortality in older ages by objective measures of health: a longitudinal mediation analysis of the English Longitudinal Study of Ageing (ELSA)

Gopal Netuveli, University of East London, UK; Mel Bartley, University College London, UK

Tea/Coffee

10:30 – 11:00

Coffee Stations**PARALLEL SESSION 4****4A: Intergenerational Transmission and Cultural Capital**

Chair: John Bynner, Institute of Education, UK

**Room: UvA 1
11:00 – 12:30**

Intergenerational transmission of achievement orientations: new evidence from the children of the YDS

Jeylan Mortimer, Lei Zhang, Chen-Yu Wu, University of Minnesota, USA; Jeanette Hussemann, Urban Institute, Washington, USA

Intergenerational sources of socioeconomic inequality in children's reading and math achievement

Narayan Sastry, University of Michigan, USA

Social and immigration-specific differences in the development of reading comprehension: a longitudinal analysis of primary school students in Germany

Thorsten Schneider, University of Leipzig, Germany; Maximilian Pfof, University of Bamberg, Germany

Social inequalities in cognitive scores at age 16: the role of reading

Alice Sullivan, Matt Brown, Institute of Education, UK

4B: Qualitative Research**Chair: Walter Heinz, University of Bremen, Germany****Room: Stellenbosch 11:00 – 12:30** **How was a 'normal' life experienced by two cohorts born twenty years apart, and what has this meant for their health?***Ellen Glasgow, Medical Research Council, University of Glasgow, UK***Sexuality in later life: a qualitative inquiry from elder adults and professionals in Chengdu***Shuyan Yang, Elsie Yan, Hong Kong University, Hong Kong***The changing processes of ageing care among migrants in the UK: findings from a longitudinal study***Nilufar Ahmed, Swansea University, UK***The importance of belonging and wellbeing: moving beyond traditional notions of youth transitions to adulthood***Hernan Cuervo, University of Melbourne, Australia***4C: Conceptualization and Measurement****Chair: Amanda Sacker, University College London, UK****Room: Sorbonne 11:00 – 12:30** **Measuring social class after labour market exit***David Blane, Mel Bartley, Morten Wahrendorf, University College London, UK; Siegfried Geyer, Hannover Medical School, Germany; Myer Glickman, ONS, UK***Representing relative social advantage: parental occupational positions in the Millennium Cohort Study***Roxanne Connelly, Institute of Education, UK***Defining vulnerability using a pre-birth contemporary child cohort***Susan Morton, Polly Atatoa-Carr, University of Auckland, New Zealand***'Foreground' via 'background'? What matters in the current desistance trajectories debate – a review***Annabel Mullin, Institute of Education, UK***4D: Socioeconomic Background and Health****Chair: Pamela Salsberry, Ohio State University, USA****Room: Oxford 11:00 – 12:30** **Family structure instability and weight change across early childhood, childhood, and early adolescence***Shannon Cavanagh, Chelsea Smith, Rob Crosnoe, University of Texas at Austin, USA***Health and poverty dynamics in comparative perspective***Laurie Corna, King's College London, UK; Amanda Sacker, University College London, UK; Diana Worts, Peggy McDonough, University of Toronto, Canada***Socio-economic inequalities in health trajectories in Switzerland: are trajectories diverging as people get older?***Stéphane Cullati, Delphine Courvoisier, Claudine Burton-Jeangros, University of Geneva, Switzerland***Is social origin destiny? Social mobility and cardiovascular risk among US young adults***Katrina Walsemann, Bridget Goosby, Deonna Farr, University of South Carolina, USA***Lunch****12:30 – 13:30****Erasmus 1 & 2**

Keynote**Room: UvA 2,3,4****13:30 – 14:30****Health connections across the lifecourse**

Mark Hayward - Professor of Sociology, Centennial Commission, Professor in the Liberal Arts and Director, Population Research Center at the University of Texas at Austin. Senior Fellow of the Sealy Center on Aging, School of Medicine, University of Texas Medical branch; Chair: Elizabeth Cooksey, The Ohio State University

SYMPOSIUM SESSION 2**S2A Convenors: John Bynner, Institute of Education, UK; Harvey Goldstein, University of Bristol, UK****Chair: Robert Erikson, University of Stockholm, Sweden****Room: UvA 1****14:30 – 15:45**

Shaping and delivering the longitudinal research agenda: how do researchers and policy makers interact and how are decisions made? The case of large-scale birth cohort studies

The case of the U.S. National Children's Study

Daniel Keating, University of Michigan, USA

The case of Life Study

Carol Dezateux, University College London, UK

The case of the French Elfe Study

Marie-Aline Charles, Elfe, Ined-Inserm-EFS joint unit, France; Henri Léridon, former director and Elfe scientific advisor

Discussant

Steve Buka, Brown University, USA

S2B Chair: Mette Lausten, The Danish National Centre for Social Research, Denmark**Room: Stellenbosch****14:30 – 15:45**

Longitudinal surveys from Denmark

The Danish Longitudinal Survey of Youth (DLSY)

Lisbeth Trille Loft, The Danish National Centre for Social Research, Denmark

The Danish Longitudinal Survey of Children in Denmark (DALSC)

Mette Lausten, The Danish National Centre for Social Research, Denmark

Children and young people in Denmark

Mai Heide Ottosen, The Danish National Centre for Social Research, Denmark

S2C Chair: Adriaan Hoogendoorn, VU Medical Center, Netherlands**Room: Sorbonne****14:30 – 15:45**

Measuring mental health transitions in longitudinal cohort studies

Studying the course of depression and anxiety from longitudinal mental health data with attrition

Adriaan Hoogendoorn, Brenda Penninx, Jan Smit, VU Medical Center, Netherlands

Recall of suicide attempts: consistency and determinants in a large mental health study

Merijn Eikelenboom, Jan Smit, Aartjan Beekman, Ad Kerkhof, Brenda Penninx, VU Medical Center, Netherlands

Treatment effect trajectories in time series of mood disorders

Stasja Draisma, Victor Buwalda, Jan Smit, VU Medical Center, Netherlands

S2D Chair: Mary Clare Lennon, City University New York, USA**Room: Oxford****Children in context: families, housing and the economy****14:30 – 15:45****The effects of the Great Recession on Parenting: evidence from the Fragile Families and Child Wellbeing Study***Will Schneider, Jeanne Brooks-Gunn, Jane Waldfogel, Columbia University, USA***The effects of the Great Recession on intimate partner violence***Daniel Schneider, University of California, Berkeley, USA; Kristen Harknett, University of Pennsylvania, USA; Sara McLanahan, Princeton University, USA***Doubling up as a safety net***Natasha Pilkauskas, Irwin Garfinkel, Columbia University, USA; Sara McLanahan, Princeton University, USA***Housing tenure and residential mobility among children in the US and UK***Mary Clare Lennon, Anthony Buttaro, The Graduate Centre – CUNY, USA; Heather Joshi, Institute of Education, UK***Tea/Coffee****15:45 – 16:15****Coffee Stations****PARALLEL SESSION 5****5A: Employment****Chair: Jeylan Mortimer, University of Minnesota, USA****Room: UvA 1****The impact of employment transitions on health and well-being. Evidence from German panel data****16:15 – 18:00***Michael Gebel, Jonas Voßemer, University of Mannheim, Germany***The relationship between child limiting long-standing illness and maternal employment: longitudinal findings from the UK Millennium Cohort Study (MCS)***Steven Hope, Anna Pearce, Catherine Law, University College London, UK***Boomer and generation x managers and employees at risk: evidence from the Work, Family and Health Network Study***Jack Lam, Phyllis Moen, Shi-Rong Lee, Erin Kelly, University of Minnesota, USA***5B: Academic Involvement and Educational Attainment****Chair: Ingrid Schoon, Institute of Education, UK****Room: Stellenbosch****The effects of social origins and cognitive ability on educational attainment: evidence from Britain and Sweden****16:15 – 18:00***Erzsebet Bukodi, John Goldthorpe, Nuffield College Oxford, UK; Robert Erikson; University of Stockholm, Sweden***Social capital at home and at school: long term effects on academic attainment***Mikaela Dufur, John Hoffmann, David Braudt, Brigham Young University, USA; Toby Parcel, North Carolina State University, USA*

University access for disadvantaged children: a comparison across English speaking countries

John Jerrim, Institute of Education, UK; Anna Vignoles, University of Cambridge, UK; Ross Finnie, University of Ottawa, Canada

Personal control and post-secondary educational involvement from the late teens to middle adulthood: a 25-year longitudinal study

Dayuma Vargas Lascano, Harvey Krahn, Nancy Galambos, Margie Lachman, University of Alberta, Canada

5C: Transitioning to Adulthood

Chair: Katariina Salmela-Aro, University of Helsinki, Finland

Room: Sorbonne

16:15 – 18:00

Longitudinal associations of sleep quantity and depressive symptoms from adolescence through young adulthood in a US national sample

Julie Maslowsky, University of Wisconsin, USA

How adolescents' cognitive and non-cognitive skills shape their later life course

Chandra Muller, Michelle Frisco, University of Texas at Austin, USA

The effects of transition to adulthood on subjective health during the Great Recession: a longitudinal study with data from the German Socio-Economic Panel

Timo-Kolja Pfortner, Katharina Rathmann, Matthias Richter University of Halle-Wittenberg, Germany

Re-evaluating the 'subjective weathering hypothesis': an examination of young adult identities in the stress process

Janel Benson, Colgate University, USA

5D: The Interplay of Family Decisions and Children's Lives

Chair: Elise de la Rochebrochard, INED, France

Room: Oxford

16:15 – 18:00

The contemporary child care environment for infants: evidence from *Growing Up in New Zealand*

Polly Atatoa-Carr, Susan Morton, Centre for Longitudinal Research: He Ara ki Mua, New Zealand

Day care (quality) and differences in children's health and personality characteristics

Peter Frauke, German Institute for Economic Research (DIW Berlin), Germany

Modelling the relationships between household residential mobility and childbearing over the life course in Australia

Michele Haynes, Arturo Martinez, University of Queensland, Australia

Support to previously cared-for children in Denmark

Mette Lausten, The Danish National Centre for Social Research (SFI), Denmark

SLLS AGM

18:15 – 19:00

UvA 2,3,4

SLLS Policy Group meeting

19:00 – 20:00

UvA 2,3,4

Day 3: Wednesday 25th September 2013

Registration

08:30 – 09:15

Congress Desk

SYMPOSIUM SESSION 3

S3A Chair: Christian Maggiori, Dario Spini, University of Lausanne, Switzerland

Room: Stellenbosch At risk situations and well being: the impact of personal resources

09:15 – 10:30

Unemployed professional trajectories – evidences from the first two years of a Swiss longitudinal study

Christian Maggiori, Claire Johnston, Jérôme Rossier, NCCR-LIVES, University of Lausanne, Switzerland

Coping with stressful situations in the professional domain

Véronique Eicher, Christian Staerklé, Alain Clémence, Marlene Carvalhosa Barbosa, Mouna Bakouri, NCCR-LIVES, University of Lausanne, Switzerland

Social group participation as a coping strategy after the loss of an intimate partner: well-being in the second half of life

Dario Spini, Davide Morselli, Eva van Rhee, NCCR-LIVES, University of Lausanne, Switzerland

Shattered beliefs: how to cope when the world is not a just place?

Rachel Fasel, Dario Spini, NCCR-LIVES, University of Lausanne, Switzerland

S3B Chair: Jos Twisk, VU Medical Center, Netherlands

Room: Sorbonne Methodological challenges in longitudinal data analysis

09:15 – 10:30

The use of multilevel analysis for longitudinal data: a brief introduction

Jos Twisk, VU Medical Center, Netherlands

A new approach to analyse longitudinal epidemiological data with an excess of zeros

Alette Spiensma, Medical Center, Netherlands

Using multilevel item response theory when modelling longitudinal likert-item questionnaire data

Rosalie Gorter, Medical Center, Netherlands

Latent class growth mixture models: predictors and consequences of class membership

Trynke Hoekstra, Medical Center, Netherlands

S3C Chair: Minna Torppa, University of Jyväskylä, Finland

Room: Oxford Psychological well-being and academic achievement

09:15 – 10:30

Psychological functioning of children with and without dyslexia: a follow up study from age 4 to age 9

Minna Torppa, Pauliina Parhiala, Kenneth Eklund, Tuija Aro, Anna-Maija Poikkeus, Riikka Heikkilä, Timo Ahonen, University of Jyväskylä, Finland

The role of big-fish-little-pond-effect for primary school children's academic self-concept and school well-being

Kati Vasalampi, Eija Pakarinen, Minna Torppa, University of Jyväskylä, Finland

Motivational factors and school achievement at vocational school: different paths to school completion

Sami Määttä, Niilo Mäki Institute, Finland

Discussant

Katariina Salmela-Aro, University of Jyväskylä, Finland

S3D Chair: Tom Schuller, UK

Room: UvA 1
09:15 – 10:30

Improving the research/policy interface: the role of intermediary and brokerage agencies

Growing Up in New Zealand

Polly Atatoa Carr, Centre for Longitudinal Research, He Ara ki Mua, New Zealand

Research uptake, approach and examples from the Young Lives cohort study
